## Titan Vine January 2015 - m-View brings wearable Fire Cam cameras to the market

[1] Melbourne-based mobile video streaming company m-View has signed an A/NZ distribution contract with Fire Cam, a US-based developer of ruggedised wearable cameras.

[2] Fire Cam system comprises a Wi-Fi pro camera that can be attached to a cloth, and record HD 1080p videos with streaming capability, among other features.

[3] m-View's streaming software allows users to stream live video, audio and GPS location data. The technology has been signed up for trial by companies such as NSW Fire and Rescue.
